Session 1:

Welcome, Introductions & Keynote

- Welcome and Introductions: Dean Angelides, ESRI International Division
- Keynote: Dr. Paul Cheung, United Nations Statistics Division
 - Question/Answer
- Overview: *Applying Geospatial Technology to the Census*, Dr. David Rain, George Washington University

Break

Session 2:

Mobile GIS and Data Collection

- Opportunities for using geospatial technology for census data collection: Dr. Amor Laaribi, United Nations Statistics Division
- Case study: *The role of US Census Bureau in Geographic Technical Assistance: Sudan* by Shonin Anacker, US Census Bureau
- Solution and lead Discussion: Susan Rufe, Trimble Navigation Limited
- Session Sponsor: Trimble Navigation Limited

Lunch - box lunches provided by our Sponsors – Space-Time Research and Lockheed Martin

Session 3:

Census Data Processing

- Challenges for using geospatial technologies for census data processing: Dr. Amor Laaribi, United Nations Statistics Division
- Solution and Discussion: John White, Lockheed Martin
- Session Sponsor: Lockheed Martin

Break

Session 4:

Dissemination of Census Information

- Opportunities for using Geospatial Technology: Richard Leadbeater, ESRI
- Case studies: Demonstration of dissemination tools from around the globe
- Solution and Discussion: Dr. Carmelle Terborgh and Richard Leadbeater, ESRI
- Session Sponsor: ESRI

5:00pm to 7:00pm

Social

Sponsored by Space-Time Research and Lockheed Martin

Location: the Plaza Terrace, San Diego Convention Center overlooking the Harbor

Day 2: Sunday, August 3rd

8:00am to 9:00am

Coffee & Networking

Location: Room 28 A/B, San Diego Convention Center

9:00am to 12:30pm

Moderator: Dr. David Rain, George Washington University

Session 5:

Statistical Analysis and Communication of Census Data

- Opportunities for using Geospatial Technology: Salim Sawaya, ESRI
- Case study: Dr. Susan Haynie, China Data Center
- Solution and Discussion: John Ellenberger, Space-Time Research
- Session Sponsor: Space-Time Research

Break

Session 6:

Beyond the Census – Ongoing Uses of Demographic Information

- Opportunities for using Geospatial Technology: Dr. Carmelle Terborgh, ESRI
- Case studies:
 - *How to take advantage of the 2010 round of population censuses to go beyond thematic mapping* – Dr. Steeve Ebener, United Nations Geographic Information Working Group – Core Geo-Database Task Group
 - Spatial Data Infrastructure – Dr. Harlan Onsrud, GSDI Association
- Discussion

Summary of the Summit

Lunch - box lunches provided by our Sponsors – Space-Time Research and Lockheed Martin

2:00-5:00pm

Moderator: Dr. Bolaji Taiwo, United Nations Population Fund (UNFPA) (invited)

Technical Track:

Session 7a: Census Data Model

- Steve Grise, ESRI

Break

Session 7b: ICA Census Cartography Working Group

- Timothy Trainor, US Bureau of the Census and International Cartographic Association (ICA) – Census Cartography Working Group

or

Executive Track:

Senior Executive Seminar

by Invitation Only

Location: Marriott Hall 4, North Tower, Marriott Hotel next to the SDCC

Day 3: Monday, August 4th

8:30am to 3:30pm

2008 ESRI International User Conference - Plenary Session

Location: Exhibition Hall, San Diego Convention Center

3:30pm to 8:30pm
